

PLAYER PROFILE – BRENTYN MUIR

FITNESS

Brentyn is always in the top fitness bracket, he works extremely hard at maintaining this high level throughout the season and has a great personal understanding of nutrition and exercise.

SPEED

Brentyn is extremely quick but due to his tall build and long legs he adds an extra element to his speed with his long stride. Brentyn has developed this speed with the ball and this is one of his greatest strengths, the ability to dribble and run with the ball at high speed. His agility to change direction and maintain control and speed is another strong asset

TECHNICAL ABILITY

Brentyn is solid in all technical areas, he is predominately a right footer and if he has a weakness it's his left side. Brentyn is more than capable with his left foot but he is still developing the trust to use (and trust) it in important parts of his game play

TEAMWORK

Brentyn is a natural leader but he is also a major part of his team and the way it is made up. He is social, easy going and inclusive with all his team mates. He is also willing to offer ideas and field questions to the coaching staff.

GENERAL PLAY AND SOCCER KNOWLEDGE

Brentyn is always in the game, he is capable of playing numerous positions including right back, right wing, striker and centre back. He has even been a GK .

Brentyn understands the game well for a young man of his age, he is a strong competitor and once the game starts Brentyn will always give 100% for the team. Brentyn is also a natural goal scorer and a line breaker. His ability to run at defences and get in behind lines is a wonderful attribute he possesses. His mental strength and confidence is then highlighted when he makes positive choices around goals.

GENERAL

I have worked with Brentyn for the past 4-5 years and have coached him from junior levels into senior soccer which he is now playing. I have travelled with him and coached him in tournaments and regular seasons and I believe he will be an asset not only to any soccer team but to the teams' school/college and community

Brett Pullen

Coach and Technical Director
