**To Whom It May Concern,**

**RE: Sporting Reference for Renee Rechichi**

Renee commenced her water polo career at the age of nine years. Since then, she has represented her state in a variety of water polo age group teams and her club at eight National Championships. She has also been a successful senior player, representing the North Coast and Melville Premier League teams over the past three years, on a regular basis in Perth.

Renee has developed into an elite player and has been a member of the Western Australian Institute of Sport Train on Program, NSW representative team (draft) and a reserve for the Australian Schoolgirls team.

Renee is a very intelligent player and her understanding and decision making when it comes to situation analysis during the game is outstanding.

During her time under my coaching she has shown commitment to training, & the hard work required of an elite level athlete to be successful in our sport.

Renee has always shown a willingness to learn and a willingness to share her knowledge with others. She is highly regarded by her fellow players and I believe she has abundant leadership qualities.

Renee is a credit to her sport and if provided with further opportunities to grow both scholastically and competitively in water polo may one day represent Australia at the highest level.

I commend Renee as a dedicated young lady with strong values of sportsmanship & teamwork who will continue to progress in her water polo endeavors with further hard work and dedication.

King regards,

*Scott Schweickle*
