To whom it may concern,

I have known JYE GILLARD for a period of 2 years as a student in my year 11 and 12 Health Education class. In the time I have known him, he has developed a reputation for integrity and work ethic.

Jye is a highly motivated and efficient person, both with curriculum studies and sport performance. He is goal oriented and highly committed to achieving those goals. He diligently works to enable achievement of his goals and actively engages with people to activate those opportunities. Jye actively seeks feedback and responds to improve quality of performance.

Jye is consistently courteous and respectful in his interactions with peers, adults and children. He is personable whilst being considered and careful in his approach to all tasks. He never rushing to complete in preference to completing with quality. Jye is a diligent worker striving to address high expectations he places on himself.

I thoroughly recommend Jye for your consideration.

Yours faithfully,

Shane Roberts.
